Dental Assisting is an in-demand career and an investment in your future.

Students will develop practical skills being cross trained in learning dental anatomy, charting, billing, dental technology and understanding their role working with the dental team.

Further topics include sterilization, disinfection, treatment room care, radiography safety/techniques, cosmetic dentistry, tooth whitening treatments, dental impressions, office administration and more!

Our accelerated training program includes lecture and hands-on clinical development.

TUITION

DENTAL ASSISTING

14 WEEKS
(Saturday Only)

\$4200

DENTAL ADMINISTRATION

2 WEEKS (M-F)

\$1200

REQUIREMENTS

Dental Administrators have a key role in managing the operations in a dental office.

Students will learn the dynamics of effective scheduling, treatment planning, insurance coordination, communication etiquette and team building.

Specific to dental administration, this program includes dental software training

A SMILE GOES A LONG WAY

HI Class Dental Learning Center is committed to promoting excellence in teaching and learning, increasing access to new opportunities and assisting graduates to secure gainful employment in the dental field.

We intend to support the broader community of dental professionals within the state of Hawaii.
